The release of the season ticket prices can start as early as January. However, most clubs release their pricing in March or April and have varying renewal windows and deadline dates.

The 2024-25 season saw a season-long campaign by the Football Supporters' Association (FSA) and affiliated/associated supporter organisations. The campaign, **#STOPEXPLOITINGLOYALTY** was used by the FSA and fans, aimed at the exploitation of loyalty due to already high ticket prices and above-inflation year-on-year price rises and/or the removal of concession seating from some parts of the stadium. The campaign also focused on supporter engagement relating to ticketing.

There was also the erosion of concession pricing, either by raising the age at which senior fans are eligible to receive a discount or reducing the percentage discount against the standard price, and in some cases, both.

The campaign was visible at many games during the season, primarily due to the **#STOPEXPLOITINGLOYALTY** banners, which were paid for by the FSA, with one banner provided to fans at each Premier League club.

The campaign has been seen as a success due to the number of clubs that announced a price freeze for the 2025-26 season, albeit with some clubs offering partial price freezes for specific categories.

During the season ticket release, clubs will list the benefits of being a season ticket holder at the club and announce any changes from the previous season or planned changes for future seasons.

It is also a good time to collect other data, including details on how each club offers a payment plan for purchasing season tickets, the age bands used by each club, whether digital ticketing is employed, and any caveats for fans who are unable to attend.

We will also list any incentives to encourage fans to renew early.

Each of these topics will be summarised under their separate headings, as well as all the information for each club collated by club. The report can be broken down into stand-alone sections for ease of use if desired.

## Age bands

Seven Premier League clubs are now linking their senior concessions to the state pension age (SPA), and **Brighton and Hove Albion** has announced it will raise its senior discount qualifying age to 66 for the 2026/27 season. The SPA will increase to 67 between 2026 and 2028, so expect clubs to raise their qualifying age again for the senior discount for the 2028/29 season.

## High-low range

The highest adult-priced season ticket can be purchased at **Fulham** for £3,084, which includes a programme and food and drink vouchers, while the lowest is a **West Ham United** Band 6 seat at £347. The figures will consist of mandatory costs that are added when purchasing a Season Ticket, such as Club Membership and/or booking fees.

## Percentage increase from the previous season

Season ticket renewal announcements tend to highlight the good parts, or the least bad parts and use phrases like “from” or “risen by £1.75 per game”. This comparison report shows the ranges across all age bands.

Most clubs will publish their season ticket prices on their websites, but there are some exceptions where the clubs inform renewing fans that they will receive a personalised price when they log in to their account to renew.

These include **Fulham**, **Leeds United** and **Manchester United**.

## Cheapest price for unaccompanied attendance

**(excludes family sections and fans that are below the unaccompanied age for that stadium)**

It's not straightforward when comparing prices like for like, as each club has its own strategy, especially regarding Junior/Child tickets. For ease of comparison, this report will use non-hospitality season ticket pricing, i.e., tickets that can be purchased online without requiring a call to the hospitality team.

For Junior pricing, we have used the cheapest season ticket price band that includes the minimum unaccompanied age for that club, representing the lowest price at which a junior fan can attend a match by themselves.

## Cost per game

Clubs use the cost-per-game figures in their marketing; we have included a consolidation table for the league.

**Fulham** boast the highest adult cost per game price at £162.32, followed by **Tottenham Hotspur** at £124.58; all the other clubs are below £100, with **Burnley** the cheapest at £27.63.

## Percentage discount against the standard adult price

Whilst a few clubs froze their prices for the 2025-26 season, either across all pricing bands or selected bands, **Crystal Palace** and **Sunderland** increased their adult Season Ticket prices by around 10%.

There are higher % rises in some other age groups, which can be viewed in the table.

## Renewal dates and deadlines

Clubs release pricing for the following season at different times; some start as early as January, while most are released in March and April. The time allowed by clubs to renew differs significantly between clubs, but is usually driven by when the club releases their prices. This time around, **West Ham United** had the longest window at 88 days, while **Newcastle** had the shortest at 11 days. The last renewal window to close was **Aston Villa's** on July 4th.

## Payment plans

The Premier League handbook (R.6.8.) require clubs to offer fans the option to pay for their season ticket by instalments:

Half of the Premier League clubs add a charge for this option, with nine clubs using V12 as their credit partner.

The other half uses their own in-house direct debit scheme with no further charge. The repayment periods offered by clubs differ and range from four to 12 months.

## Ticket types and quantities

Clubs generally do not disclose the number of season tickets they have or hospitality tickets, citing confidentiality, so there will be a lot of gaps; however, this information is occasionally released.

A club's ticketing partner has been included in the table, as well as whether the club has implemented digital ticketing ahead of the deadline for the 2026/27 season.

Clubs will retain some discretion to make tickets available in alternative formats to supporters who have reasonable grounds for requesting them.

A brief description of each club's current standing is provided.

# Season Ticket Prices 2025-26

 **AFC Bournemouth** have announced that general admission season tickets will increase by 6.5% for 82% of current season ticket holders for the 2025-2026 season. The remaining season ticket holders will see a rise of 13.3% or 19.5%, as the club completes its three-year plan to establish a consistent discount of 20% off adult pricing for concession ticket holders.

 **Arsenal** general admission season tickets will increase by 3% (upper tier) and 5% (lower tier). Supporters can now choose between a 19-match (PL) and a 23-match (PL + 4 UEFA) season ticket.

19-match season ticket holders must join the Silver member ballot to secure tickets for all UEFA fixtures, subject to qualification.

From the 2025-26 season, Arsenal will ensure that their matches remain accessible to the local community by making 1,000 tickets available free of charge throughout the season.

From the 2025-26 season, season ticket holders who post their tickets on the Ticket Exchange on the day of the match will only receive their seat utilisation credit if the ticket is sold. If they post their ticket on Ticket Exchange before midnight on the day before the game, they will receive their credit regardless of whether it sells.

 **Aston Villa** have increased prices between 0.0% and 5.1%. The Under-21 ticket prices were frozen, except for those in the 1888 seat band.

The club also announced that, in preparation for an increase in stadium capacity, it will reconfigure the season ticket waitlist, which was previously free to join. Points will be added retrospectively for game attendance over the last two seasons, and any fan with zero points will be removed. In the future, a charge of £10 (redeemable against the price of a season ticket) will be applied to any new fans joining the waiting list. Points will be added for home games for both the men's and women's teams.

The club also introduced a season ticket usage scheme, requiring fans to use their ticket for 14 of the 19 home league games.

 **Brentford** have announced that general admission season tickets have been frozen.

 **Brighton & Hove Albion** general admission season tickets rose between 2.42% and 10% across all Zone and Age bands except for the Under 10 age band in Zone A, which saw a 5.56% decrease. The U10 age band concession is being removed from Zone D. However, U10 renewals in Zone D will be honoured.

The club will introduce a minimum seat usage policy. Season ticket holders are not permitted to leave their seats unused for five or more matches. Listing the ticket on seat exchange by 2 p.m. the day before the game counts as seat usage.

The club announced that it will be moving the senior concession to 66+ from the 2026/27 season and stated that the senior discount will be gradually reduced from the current 30% to 20% by the 2029/30 season.

 **Burnley** has announced that season tickets have been frozen; however, the U22 age band has been changed to U21.

 **Chelsea** has increased prices between 7.3% and 14.8%; the club has also introduced a new age band for 20-22-year-olds.

The club raised the senior concession qualifying age to 66, in line with the state pension age, and added a £1 booking fee to GA ticket purchases.

The club also informed its supporters that the value of the tickets sold via the club ticket exchange will now be in the form of an online credit, which can be used for future ticket purchases.

 **Crystal Palace** has increased renewal prices between 9.5% and 11.1%

The club have three sale phases:

Phase one: Pay in full at the percentage increase of between 9.5% and 11.1%.

Phase two: You can choose to pay in instalments with no fees. However, the prices are 7.5% higher than in phase one.

Phase three: New season ticket holders, where the prices are 12.5% higher than phase one renewals.

 **Everton** has moved into a new stadium. Therefore, a comparison cannot be made.

 **Fulham** have increased prices across the board between 2.7% and 2.9%.

 **Leeds United** has announced a price rise but has not yet published the figures or %.

The club is moving from three pricing structures of the 2024-25 season to two for the 2025-26 season.

The club previously announced that the United for 20 Years scheme will expire at the end of the 2024-25 season; therefore, all United for 20 Years ticket holders will need to apply online and pay for their 2025-26 season ticket. This group of supporters will be classed as renewals, and their price tier will depend on their season ticket tenure and personal circumstances during the term of the scheme.

Existing Season Ticket Holders were only able to renew online for the 2025-26 season if they met the 80% attendance threshold (18 or more home league games in the 2024-25 season).

 **Liverpool** has announced that general admission season tickets have been frozen.

 **Manchester City** have announced that general admission season tickets have been frozen.

The club announced, as part of their seat usage policy, that fans must personally attend at least 10 games.

 **Manchester United** have increased general season ticket prices by 5.4% but frozen the prices for U16S. The club has also increased the age at which the Senior Discount applies to 66 and older and reduced the senior discount to 25% from 50%. The club has yet to release the complete figures, only the headline figures.

 **Newcastle United** have increased general season ticket prices by 5%, but have frozen the prices for junior season ticket holders. A 10-year season ticket scheme has come to an end, resulting in a significant increase in the cost of many fans' season tickets, upwards of 65%.

 **Nottingham Forest** general admission season tickets rose between 1.75% and 16.7% across all zones and Age bands, except Child & Youth Season Tickets in Zone 4.

 **Sunderland** has announced a 9.5% price rise for renewing season ticket holders.

The club has a different price matrix for new season ticket holders, which sees price rises between 6.5% and 58% on the renewing price.

The club also announced that U14 season ticket holders must use or forward their ticket for 70% of daytime fixtures to guarantee access to future loyalty pricing. This was due to the club announcing that an average of 32% of junior tickets were not being used each matchday.

The club has announced that they will reimburse season ticket holders aged 85 and over who have held season tickets for more than three years for the amount they paid to renew for the 2025-26 season.

 **Tottenham Hotspur** have announced that general admission season tickets have been frozen. However, the Senior discount was reduced by 5% & qualifying age was raised to 66+, which meant a 10% rise in the cost of the season ticket for the affected fans.

The Club initially announced that the Automatic Cup Scheme would no longer be available; however, following a backlash from fans, the Club has decided to retain the scheme, albeit with stricter oversight.

 **West Ham United** have announced that general admission season tickets have been frozen and announced that concessions will return to seat bands 1 to 4.

 **Wolverhampton Wanderers** have announced that general admission season tickets have been frozen.

# Trends

## Age bands

Three clubs, **Chelsea, Manchester United and Tottenham Hotspur**, raised their senior age to 66+ for the 2025-26 season.

This brings the total to seven of the twenty Premier League clubs that have 66+ as the starting point for senior concessions.

**Brighton & Hove Albion** announced their intention to do the same in the 2026/27 season.

**Burnley** changed their U22 concession to U21, and **Chelsea** introduced a new age band for 20-22 years olds.

## Concession percentages

Three clubs, **Bournemouth, Manchester United and Tottenham Hotspur**, all reduced % concessions against the standard adult price for the 2025-26 season for some or all the concessions.

## Legacy season ticket deals

**Leeds United** and **Newcastle United** both had long-term season ticket deals come to an end, which meant that some fans saw a bigger price rise in the seats they occupied. They were allowed to move seats.

## Minimum seat usage policy

There are now nine clubs that have a minimum seat usage policy: **Arsenal, Aston Villa, Brentford, Brighton & Hove Albion, Leeds United, Liverpool, Manchester City, Manchester United** and **Newcastle United**.

**Sunderland** has a partial policy for fans aged 14 and under, who must use or forward their ticket for at least 70% of daytime fixtures to guarantee access to future loyalty pricing.

**Manchester City** also stipulate that fans must personally use their season ticket for at least ten games.

## Age bands

The Premier League Handbook requires clubs to offer concessionary tickets:

### Section R: Supporter relations - ticketing

**R.8.** Concessionary ticket prices must be made available by each of the Home and Visiting Clubs for:

**R.8.1.** senior citizens; and

**R.8.2.** junior supporters

## Hi-low range

This table displays the pricing range across the stadium for each age band. Clubs that do not offer concession pricing in all parts of the general admission areas of the stadium are listed below the table.

I have not been able to find the complete season ticket pricing for Leeds United.

**Arsenal** only offer a senior discount in the family section; however, once you receive it, you keep it even if you move to other parts of the ground.

**Aston Villa** only offers concession rates in the 1888 and Zone 1 Seat Bands to fans who have held season tickets in the same seat in those stands since the 2006/07 season.

**Brighton & Hove Albion** do not offer concession pricing in Zone E.

**Crystal Palace** only offers the U10 (Child) discount in the family section.

**Newcastle United** only offers the 18-21 (Young Adult) category in Categories 2 and 3 of the general admission (GA) standard seating.

**Sunderland** does not offer the U14 concession price in the Red pricing category.

**Tottenham Hotspur** do not offer concession pricing in zones 9-15.

**West Ham United** do not offer concessions in the 1966 seats.

Six clubs froze their prices across the board:

**Brentford, Burnley, Liverpool, Manchester City, West Ham United** and **Wolverhampton Wanderers**.

**Aston Villa, Manchester United, Newcastle United**, and **Nottingham Forest** froze Junior concessions in all or part of the stadium.

Some of the most significant increases were due to the age increase for Senior Discount and/or a reduction in the percentage discount off the standard adult price, coupled with a price rise.

21-year-old **Burnley** fans missed out on an extra year of concession pricing when the club reduced the U22 concession to U21.

There were some price reductions for select fan groups, including U10 at **Brighton and Hove Albion** in Zone A. The introduction of the new U23 price band at **Chelsea** has meant that 22-year-old fans will pay less this season than they did last season.

**West Ham United** restored concessions to new season ticket holders in Bands 1 – 4.

## Cheapest price for unaccompanied attendance

It's not straightforward when comparing prices like for like, as each club has its own strategy, especially regarding junior/child tickets. For ease of comparison, this table will use non-hospitality season ticket pricing that can be purchased via the club's ticketing portal, with the following age bands, excluding limited family sections, which are not available to all fans and have their own pricing.

For Junior pricing, we have used the cheapest season ticket price band that includes the minimum unaccompanied age for that club, representing the lowest price at which a junior fan can attend a match by themselves.

Each club's age bands are listed on its respective club page, which can be found further down this document.

The U/A stands for Unaccompanied and is the age at which fans can attend without an accompanying adult for that club.

**AFC Bournemouth** requires Junior Cherries to purchase a Junior Cherries membership to access Junior Cherries season ticket pricing for £10 or £17 for the "plus membership" option, plus a £3 booking fee.

**Arsenal** only offer a senior discount in the family section = £396.25

**Leeds United** has not published a price matrix; however, some prices have been calculated. There is a figure of £170.00 for the lowest Junior price, but it's not known if this is restricted to the family section.

**Manchester City** fans must personally attend at least 10 games.

**Sunderland** U14 season ticket holders must use or forward their ticket for 70% of daytime fixtures to guarantee access to future loyalty pricing.

## Percentage discount applied to the standard adult price

This table shows the percentage discount applied to the standard adult season ticket price for each age group at the relevant club.

Some clubs are reducing the concessions discount, which will result in a price rise for the season ticket, even if the standard adult price remains the same.

Due to clubs having different age bands for concessions, this table should be used in conjunction with the club-specific table when comparing one club with another.

**AFC Bournemouth** offer concessions to full-time students

**Arsenal** Senior Discount is only available in the Family Section

**Aston Villa** offer concessions to serving members of the Armed Forces

**Crystal Palace** provides concessions for full-time students

**Newcastle United** offers concessions to full-time students within categories 2 and 3 areas.

## Renewal dates and deadlines

This table shows the season ticket renewal deadline for each club. Each club releases the pricing for the following season at different times; some start as early as January, with most being released in March and April. The time allowed by clubs to renew differs significantly between clubs, but is usually driven by when the club releases their prices. This time around, **West Ham United** had the longest window at 88 days, and the last renewal window to close was **Aston Villa's** on July 4th.

Most clubs used to publish their renewal rates; however, the only ones found this season are those where the club has had a high rate of renewals.

<a href="#">Wolverhampton Wanderers</a>	07/05/2025	01/06/2025	25	94.0%

If a club offers incentives to renew early, it will be listed below.

**West Ham United** – All fans who renew by the 31<sup>st</sup> March 2025:

- Exclusive Seat Relocation Window
- Option to buy up to two additional Season Tickets for friends and family
- Receive three loyalty points
- Entered into draws for Club London seats for upcoming games

**Crystal Palace** – There were two phases for renewing season ticket holders, the first was the cheapest; however, the prices were higher in the second phase, and it was the only phase that you could apply to use the monthly payment option, so whilst there was no charge for using the option, the prices were higher.

## Payment plans

There is a rule in the Premier League Handbook that requires clubs to offer fans the option to pay for their season ticket by instalments:

### Section R: Supporter Relations

Ticketing

**R.6.** A club's ticketing policy should:

**R.6.8.** make available a method of payment for season tickets by instalments at competitive rates of interest;

This table shows the length of instalment plans and the interest rate.

Club	Pay by Instalments	Admin Fee
<a href="#">AFC Bournemouth</a>	5 payments (DD)	0.00%
<a href="#">Arsenal</a>	4 /10 payments (V12)	4.65% / 6.31%

<a href="#">Chelsea</a>	8 payments (V12)	6.64%
<a href="#">Crystal Palace</a>	10 payments (DD)	0.00%
<a href="#">Everton</a>	10-12 payments (DD)	£55 Facility Fee

<a href="#">West Ham United</a>	4/10 payments (V12)	4.46% / 7.32%
<a href="#">Wolverhampton Wanderers</a>	9 payments (DD)	0.00%

Clubs that do not have their own Direct Debit scheme in place use the finance company V12.

**Crystal Palace** offers its fans the opportunity to spread the cost of their season ticket over 10 equal payments with no administration fees or interest. However, they can only access this offer in phase two of season ticket renewals, where prices are approximately 7.5% higher, which is similar to the admin fee that V12 charges for their 10-payment option.

**Everton** applies a facility fee to each application, allowing a single application to contain multiple season tickets. Therefore, the cost of the facility fee per ticket is diluted for multiple ticket orders.

# Digital ticketing 2025-26

Digital ticketing is to be a mandatory requirement for all Premier League clubs by the 2026/27 season.

<https://www.premierleague.com/news/4071456>

League rules will require clubs to ensure that Season Tickets and all Home and Away Match Tickets are made available as digital tickets by default.

Clubs will retain some discretion to make tickets available in alternative formats to supporters who have reasonable grounds for requesting them.

This may include supporters who have a disability that makes the purchase or use of digital tickets challenging.

Other examples include group bookings, such as those from schools or Community partners.

**AFC Bournemouth** gives fans the option to use digital tickets through its app or request a digital card.

**Arsenal** uses digital ticketing. Supporters who do not have a mobile phone or require a physical ticket as a reasonable adjustment are provided with a membership card at no extra cost.

**Aston Villa** utilises digital ticketing and has an application process in place for supporters who require season cards, allowing them to submit a request before the start of the season. If the reason for the request is genuine and supporting evidence is provided (though not in all cases), the club may grant this option complimentary. However, the club also grants season cards to those who prefer it, and they are charged at £10.

**Brentford** will be introducing digital ticketing for the 2025-26 season. To help all fans feel confident using digital tickets before the Premier League's 2026/27 season deadline, the club will allow exemptions on a case-by-case basis, ensuring that fans are not disadvantaged by the move away from physical season cards.

**Brighton & Hove Albion** have been using digital ticketing since the 2021/22 season. Any supporter requesting a season card will be required to send us a copy of their passport details page or photo driving license (unless under 12 years of age), along with a separate, clear picture of their face, which will be printed on their card. A £20 fee will be charged for all season card requests.

**Burnley** is using Season Cards for this coming season.

**Chelsea** will be introducing digital ticketing from the start of the 2025-26 season, replacing all types of physical tickets for Chelsea FC's home matches at Stamford Bridge. They plan to assist as many fans as possible in transitioning to digital ticketing. However, where that is not possible, there will be an opportunity to request an exemption, and all submissions will be considered on a case-by-case basis.

**Crystal Palace** have been using digital tickets for the 24/25 season. Supporters aged 65 or older and those under 18 were eligible for a season card, which required an application. For supporters purchasing on a match-by-match basis, if they are unable to use digital tickets, they can obtain a paper ticket printed on the day of the game, but no earlier than that.

**Everton** currently encourages the use of digital ticketing for Premier League matches, with a £10 charge for a physical card. Digital ticketing will become the primary method starting from the 2025-26 season. The club will provide an option for supporters with reasonable grounds to request a physical card. Applications for this will be assessed on a case-by-case basis.

**Fulham** utilises digital ticketing for home fans. However, away tickets are still physical. Fans under 18, over 65, or those with accessibility needs who do not use or have compatible mobile phones can apply for a physical season card at no cost. Supporters purchasing on a match-by-match basis can pay for physical tickets.

**Leeds United** utilises digital ticketing, and those without a smartphone are asked to contact the club for alternative options.

**Liverpool** will continue to use NFC (near-field communication) technology for stadium entry in the new season, with all tickets being digital on a smartphone in the form of an NFC pass. All season ticket holders, LFC Official Members, and seasonal hospitality members must download their NFC passes to their smartphones before arriving at their designated turnstile to ensure they are all set to gain access to Anfield. There will be no Print@Home or paper tickets.

Season Ticket Holders and Members without a compatible smartphone can request a Stadium Access Card. This is a photo ID card that will have their picture printed on it. The photo can either be uploaded electronically, or a member of our Ticketing Services team will be in touch with you to arrange for you to have your photograph taken at the Ticket Office. New cards must be collected from the Ticket Office, with photographic ID and proof of address. The Club will contact you once your new card is ready for collection.

**Manchester City** utilises digital ticketing. If the device doesn't support NFC, fans can check the compatibility by using the links on the website or by contacting Fan Support.

**Manchester United** has been utilising digital ticketing at Old Trafford for all supporters since the 2021/22 season, and it has been mandatory not to use print-at-home/PDF tickets since the start of the 2023/24 Season. They do have a small number of supporters using print-at-home tickets for this season, who have a picture of themselves on the ticket to prove it is them using it, and they need to go to the ticket office for their picture. There is no additional cost for the small number of supporters who have required this.

**Newcastle United** has been utilising digital ticketing at St James' Park, and plenty of information is available on how to use it, including helpful videos. However, there is very little information on alternative formats for supporters who have reasonable grounds to request them.

**Nottingham Forest** Season Card holders have the option to choose either a Digital Season Card (with no admin fee) or a Physical Season Card, for which a £5 admin fee applies per Season Card. For supporters who qualify for an exemption, the club will issue paper tickets.

**Sunderland** utilises digital season cards; physical cards are only available to supporters who have a genuine need, and the club reserves the right to refuse requests where digital tickets can be used.

Supporters who have no genuine alternative to digital can request a physical card by submitting a request. A charge of £15 will be applied. This option is only available to supporters who purchased their 2025-26 season ticket during the early bird period. No physical season card requests will be considered for those purchasing during the new sales window.

**Tottenham Hotspur** utilises digital ticketing and will supply a Photo ID Stadium Entry Card to fans who request one for themselves and junior fans who do not have a smartphone.

**West Ham United** has been utilising digital ticketing at the London Stadium, and any supporters who are unable to use their Season Card in digital format will be able to request a physical card before the start of the season. All requests will be reviewed to determine if they are valid, following the previous utilisation history of ingress at both London Stadium and Away venues that offer digital options as a primary method of entry, including the Europa Conference Final, which featured all-digital ticket issuance. There is currently no additional cost to the supporter. If a supporter loses their season ticket card, a £10 replacement charge applies. Again, this charge is reviewed on a case-by-case basis.

West Ham United would offer a paper ticket, if required, on a case-by-case basis or for match-by-match purchases. These can either be posted or collected directly from the Ticket Office.

**Wolverhampton Wanderers** are still using smartcards for entry; however, digital tickets are being phased in during the 2025-26 season.

## **Significant Changes for Season Ticket Holders for the 2025-26 Season.**

Supporters will now choose between a 19-match (Premier League matches only) and a 23-match (including four UEFA league phase fixtures) season ticket.

From next season, if season ticket holders post their ticket on the Ticket Exchange on the day of the match, they will only receive their seat utilisation credit if the ticket is sold. If they post their ticket on Ticket Exchange before midnight on the day before the match, they will receive their credit regardless of whether it sells.

From the 2025-26 season, Arsenal are introducing a seat utilisation policy for match-by-match ticket holders.

This means members will be blocked from entering the ballot for the remainder of the season if they do not utilise their seat (either attend the match or put their ticket on Ticket Exchange) on more than one occasion.

From the 2025-26 season, Arsenal will ensure that their matches remain accessible to the local community by making 1,000 tickets available free of charge throughout the season. Arsenal in the Community will ensure that these tickets are allocated to Arsenal supporters who engage with us through our education and employment, social inclusion, and sport, health, and wellbeing programmes.

My Arsenal Rewards will close at the end of the 2024-25 season on 31 May 2025.

### Significant Changes for Season Ticket Holders for the 2025-26 Season.

The club reconfigured the season ticket waitlist, which was previously free to join. Points will be added retrospectively for game attendance over the last two seasons, and any fan with zero points will be removed. A charge of £10 (redeemable against the price of a season ticket) will be applied to any new fans joining the waiting list. Points will be added for home games for both the men's and women's teams.

The club also introduced a season ticket usage scheme, requiring fans to use their ticket for 14 of the 19 home league games.

### Significant changes for season ticket holders for the 2025-26 season.

The club are updating the eligibility criteria for season ticket holders in the family area to prioritise groups with juniors. From the start of the 2025-26 season, groups in the family area must include at least one supporter aged 18 or under.

This threshold will be reduced to under-16 at the start of the 2026/27 season. To help with this transition, those affected have already been contacted with further information and have been offered support to find new seats for their group.

The club will introduce digital ticketing as the standard for home fixtures, along with a new process for ticket sharing.

## Significant Changes for Season Ticket Holders for the 2025-26 Season.

After consultation with the Fan Advisory Board the club are announcing some important changes for season-ticket holders going forward.

From 2025-26 we are asking season ticket holders to use their ticket for 75% of matches during the season.

This means you can attend, list for resale, share or upgrade your ticket but you cannot leave your seat empty for five or more matches.

If you do, you may not be able to renew for 2026/27 and we may list your seat on the ticket exchange.

To count towards 75% usage, tickets must be listed on the ticket exchange by 2pm on the day before the match.

Remember, you can share your ticket with a MyAlbion+ member with one free use per season or £20 for unlimited sharing.

By making these changes we will make sure that everyone gets the chance of enjoying the thrill of a Premier League matchday at the Amex.

We are giving early notice that we will be moving the senior concession age to 66 and over for the start of the 2026/27 season, as we fall in line with the government's pension age.

We've seen the number of concession season ticket holders grow significantly in recent years and the discount that concessions receive compared to the adult price has grown since the Amex opened from 25% to 33% in some areas.

Over the coming seasons, we'll slowly reduce this discount back to 25% by 2027/28 and to 20% by 2029/30. We'll continue to review the senior concession age in line with the state pension age.

With a 95% renewal rate overall on season tickets, our season ticket base is getting older. Since the Amex opened the number of senior season tickets has gone up from 10% to 18% and in areas such as Zone D only

53% of season tickets are held by adults, the remainder by concessions. We hope this helps to provide some context to why these changes are being made.

### Significant Changes for Season Ticket Holders for the 2025-26 Season.

The club introduced a new age band for 20-22-year-olds.

Away Match Tickets are non-transferable, with random checks in place to prevent unauthorised transfers.

Away Match Ticket allocation being split 70/30 between Season Ticket Holders and Members (previously 60/40) after a 20% reduction for hospitality.

The return of a £1 booking fee for all GA Match Ticket sales via the online ticketing platform.

A rise in the Concession age from 65 to 66, effective July 31, 2025.

The Match Ticket Exchange no longer facilitates supporters selling their tickets for their face value; instead, they receive online credit that can be used for future ticket purchases.

### **Significant Changes for Season Ticket Holders for the 2025-26 Season.**

Liverpool FC have introduced the 'Every Seat, Every Game' policy, which means season ticket holders will need to ensure their seat is used for at least 15 Premier League home games per season from 2025-26, or risk not being eligible to renew for future seasons.

Tickets posted on the Ticket Exchange or sent to Friends and Family via the ticket forwarding service will be counted as a used seat for season ticket holders, regardless of whether the ticket sells or not.

### Season Ticket Prices - Cost per Game.

### Season Ticket Holder Benefits.

### Significant Changes for Season Ticket Holders for the 2025-26 Season.

The late listing of tickets for re-sale greatly impacts the ability for our Members to purchase tickets for the game. From next season, when fans wish to sell their ticket back to the club at late notice (within 14 days of the game), there will be a fee of £10 deducted from their refund. There is no fee for reselling prior to 14 days and the forwarding and donating to the MU Foundation options will remain unchanged.

Minimum usage of a Season Ticket (which includes forwarding, donating to MU Foundation or reselling to the club) will increase by one game to a minimum of 16 out of 19 Premier League games.

The age at which our 'senior' discount (25% off) is applied will now track the state pension age. This is currently 66 years old.

All fans aged 66 or over will now receive a 25% discount (removing the inconsistency with some who previously received a 50% discount).

Some of the general admission tickets directly adjacent to the home and away dugouts will be converted to hospitality seats, reflecting the high value of this unique location. We appreciate the disruption this will cause those fans who currently sit there and we will be contacting them individually to ensure a suitable alternative seat is found.

Season ticket holders will be sent a link to upload a valid photo ID and upload a live photo of themselves, once they have passed the ID check will fans be able to renew their season ticket for the 2025-26 season.

Introduction of game categorisation for match-by-match tickets (not applicable to Season-Ticket holders). More details on pricing and which games are in which category will be issued before the release of Premier League fixtures. For the avoidance of doubt, concessions will continue to apply to these tickets.

### **Significant Changes for Season Ticket Holders for the 2025-26 Season.**

Season ticket prices, across the stadium, will increase 5% from the 2024-25 standard pricing.

Junior ticket prices will remain frozen at their current level.

Fans who have been on the long-term season ticket price freeze and wish to relocate their seats to a more affordable area within the stadium will be permitted to do so, subject to availability.

There will be no increase in all Domestic Cup Scheme ticket prices for Carabao Cup and FA Cup matches in the 2025-26 season.

To add greater flexibility to payments, we are introducing a free 12-month Direct Debit scheme for all season ticket holders.

A Season Ticket shall not be eligible for renewal. It shall be terminated for the subsequent season if your Season Ticket has been unused for 5 (five) individual Matches in the Season (these need not be consecutive).

### Significant Changes for Season Ticket Holders for the 2025-26 Season.

From the 2026/27 Season, it will be mandatory in the Premier League for all clubs to issue and operate digital tickets only. Therefore as part of our transition to digital tickets, from next season, supporters will have the opportunity to choose either a digital Season Card, or a physical Season Card (reactivation of existing card, or a new card e.g., if price class change or relocation), with a £5\* admin fee for a physical Season Card. All proceeds from this admin fee will be donated to the Community Trust.

- 30 loyalty points

### **Significant Changes for Season Ticket Holders for the 2025-26 Season.**

As outlined in our Ticketing Charter, from the 2025-26 season, the qualifying age for a senior concession—both for Season Tickets and matchdays—will align with the State Pension Age (SPA), currently 66 years old, depending on date of birth.

From next season, Season Ticket Holders who sell their seat on Ticket Exchange will receive a 1/19<sup>th</sup> refund on the value of their Season Ticket – this sees us revert to what we did previously, bringing us in line with the majority of other Premier League clubs and preventing Season Tickets, which carry an inherent discount, being sold for profit.

In the interest of fairness to our One Hotspur Members, Ticket Share will only be permissible to those holding a Club membership.

**Significant changes for season ticket holders for the 2025-26 season.**

Significantly, for the 2025-26 campaign, the Club has expanded the areas where concessionary tickets are available for new Season Ticket Holders, with discounts available in all general admission Bands 1-6. This means any supporters joining from the Season Ticket Waiting List will be able to access concessionary discounts at the same level as existing supporters for 2025-26.
